#### 3. DIRECTORS' COMMENTARY 3.1 Transactional overview

On 3 July 2019 Paratus Namibia concluded a rights issue. In terms of the rights issue the aggregate amount raised by Paratus Namibia amounted to N\$ 50 million, which was contributed as share capital in Paratus Namibia, by Paratus Namibia Holdings and Paratus Group pro rata to their respective shareholdings in Paratus Namibia on this date. The subscription price was N\$1 053.03, consisting of a par value of N\$5 and a premium of N\$1 048.03 per ordinary share for both Paratus Namibia Holdings and Paratus Group. Paratus Namibia Holdings subscribed for 24 398 ordinary shares in Paratus Namibia, for a consideration of N\$25.7 million, which resulted in no change in the effective percentage shareholding in the company.

The capital raised in Paratus Namibia is utilised towards the capital expenditure budget of N\$114 million for the current financial year, ending 30 June 2020, with N\$56.5 million earmarked for the fiber to the x (FTTx) roll-out and N\$24.4 million for LTE network assets.

On 25 September 2019 the shareholders approved the implementation of the proposed share swap transaction, as a Category 1 transaction together with an issue of new shares as consideration, in terms of the NSX Listing requirements. Effective 1 January 2020, in terms of the swap, Paratus Namibia Holdings acquired 46 168 ordinary shares in Paratus Namibia, resulting in an increased effective shareholding of Paratus Namibia Holdings from 51.38% to 100% of the total issued ordinary shares in Paratus Namibia. From 1 January 2020 the financial results of Paratus Namibia are therefore consolidated into the Paratus Namibia Holdings financial results.

The swap consideration was settled through the issue of 20 012 431 new ordinary Paratus Namibia Holdings Shares allotted to Paratus Group at a pre-determined and agreed upon price of N\$10.50 each for a total consideration of N\$210 130 525.50.

#### 3.2 The market and prospects Although global market conditions have affected market confidence and consumer spending patterns, the group

remains well placed to grow revenues. For the 12 months ended 29 February 2020 Paratus Namibia delivered commendable revenue growth despite a depressed Namibian economy. The company realised turnover of N\$323.7million (2019: N\$283.7million), which represents a growth of 14%. The net profit before tax for the same period amounts to N\$29.9 million (2019: N\$13.8 million) and earnings before interest, tax, depreciation and amortisation (EBITDA) amounts to N\$78.8million

(2019:N\$52.8million). This represents a growth of 117% and 49% respectively. EBITDA number mirrors the company's ability to generate cash flows from operations. The disparity between profit after taxation and EBITDA stems from the large depreciation charges recorded on infrastructure deployed.

The growth in profitability is mainly attributable to the improved operating margins coming from the extensive infrastructure roll-out and once off revenue derived from Local Area Network (LAN) installations in new commercial buildings. During March 2020, the board of Paratus Namibia Holdings approved an additional fiber roll-out project of N\$60 million to expand the fiber network in Windhoek, Swakopmund and Walvis Bay. The directors are of the opinion that the continued investment in infrastructure assets bodes well for future revenue growth.

After the 28 February 2020 interim financial reporting period, there has been a wide-spread international outbreak of the Covid-19 virus originating in China, which has significantly affected lives, entities and economic activity around the world. The Namibian Government implemented a national "lockdown" starting at midnight on 27 March 2020. As a result of the spread of the virus and the reactions thereto, there have been material adverse financial effects around the world.

In terms of IFRS, these events are material "non-adjusting events" occurring after the reporting period. It is not possible to provide accurate estimates of the financial effects of the pandemic on the group, which is inherently uncertain, but the following are potential future financial effects:

- Reduction in value of investments;
- Impact on service levels and revenue;
- Foreign exchange losses due to exposure to foreign suppliers; and
- Bad debts due to customer payments defaults.

The group has a Business Continuity Plan (BCP) in place, which sets out its response to the management of epidemics. The group's BCP was invoked whereby an increasing proportion of our workforce were enabled to work from home, whilst arrangements for those who remained in the office were adjusted to ensure appropriate "social distancing" to protect our employees

All essential functions, such as the network operating centre, new service provisioning and billing continued to operate uninterruptedly

The directors have considered the impact of the pandemic on the business of the group and believes the group is well positioned with sufficient liquid reserves to continue as a going concern.

## 3.3 Changes to the Board

Since the previous announcement there have been no changes to the board of directors.

3.4 Contingent liabilities

As at the date of approval of the interim financial results, the Board was not aware of any contingent liabilities. 3.5 Dividend declared
