## **TRADING STATEMENT**

In compliance with the Namibian Stock Exchange (‘NSX’) Listings Requirements paragraph 3.4(b), Paratus Namibia Holdings Limited (‘PNH’) shareholders are advised of the following in relation to the 30 June 2024 year-end results:

1. Revenue for the year is anticipated to be materially higher (between 10% and 30%) in relation to the 30 June 2023 comparative year;
2. Earnings before interest, tax, depreciation and amortisation (EBITDA) for the year is anticipated to be substantially higher (more than 30%) in relation to the 30 June 2023 comparative year;
3. Headline earnings per ordinary share (HEPS) are anticipated to be materially higher (between 10% and 30%) in relation to the 30 June 2023 comparative year; and
4. Basic earnings per ordinary share (BEPS) for the year are anticipated to be materially higher (between 10% and 30%) in relation to the 30 June 2023 comparative year.

The main reason for the increase in HEPS and BEPS is due to the increase in Paratus Telecommunications (Pty) Ltd.’s profitability, emanating from the growth in recurring and non-recurring revenue and the containment of operating expenses.

The large disparity between EBITDA and profit after taxation stems mainly from the large non-cash depreciation charges recorded on infrastructure deployed.

This trading statement has not been reviewed or reported on by Paratus’ external auditors. The unaudited results for the period ended 30 June 2024 are expected to be published on or about 20 September 2024.
