Why choose Paratus?

Paratus Zambia provides the Starlink Local Priority service that is installed, fully managed and ready for your needs. It is a reliable Satellite based connectivity service that you can count on.

- Starlink Authorised Reseller status with local offices in Zambia
- Fully licensed by the Zambia Information and Communications Technology Authority (ZICTA)
- Full Starlink Kit range (Mini, Standard, High Performance)
- Professional Installation and integration support.
- 24/7 in-country technical support via our Network Operations Center
- Performance monitoring via our own Portal and/or Mobile App
- Monthly invoicing in Kwacha

Please note that equipment and installation fees must be paid prior to installation and activation. An invoice will be issued upon receipt of the signed contract.

*Typical speeds are calculated globally and represent the 20th to 80th percentile of real user data. Speeds may vary based on your location.
