PARATUS CASE STUDY

Connecting 10,000 learners through reliable Starlink connectivity.

Paratus Zambia deployed Starlink across 18 Family Legacy schools, providing reliable, high-speed internet to more than 10,000 learners and educators.

Overview

Family Legacy supports more than **10,000** vulnerable children across **18 schools** in Lusaka. To strengthen digital education, the organisation partnered with Paratus Zambia to deploy Starlink connectivity across every campus, delivering reliable internet in just two weeks.

The Challenge

Family Legacy schools relied on unstable internet connections that frequently disrupted teaching, administration and access to digital learning resources.

Key challenges included:

-  Frequent network outages
-  Limited access to online learning resources
-  Infrastructure limitations
-  Inconsistent connectivity across 18 schools

The Solution

Paratus Zambia deployed Starlink Business across all **18 schools**, providing fast, reliable internet with minimal infrastructure and rapid installation.

The installation process

The rollout was:

Completed in approximately two weeks

Installed across 18 schools

Delivered with minimal disruption

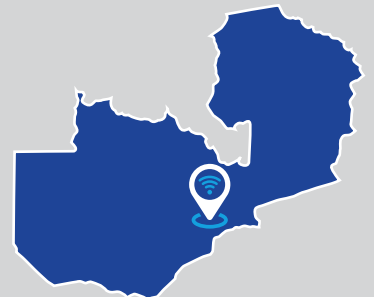

Fully managed by Paratus Zambia

Location:
Lusaka, Zambia

campuses
connected

The Impact

1. Improved learning

Learners can access online educational resources and research platforms.

2. Better teaching

Teachers have reliable access to digital tools and classroom resources.

3. Greater efficiency

School administration and communication have become faster and more reliable.

Performance & reliability the school reports:

- Reliable high-speed connectivity
- Consistent network performance
- Improved access to online resources
- Minimal downtime.

Reliable connectivity has transformed how our schools operate. Our learners and teachers now have access to opportunities that were previously out of reach.

Local Resource Mobilization -
Chimuka H. Mulenga

Conclusion

The project demonstrates how reliable satellite connectivity can transform education at scale, giving more than **10,000 learners the digital access they need to succeed.**

Paratus Essential Services

Connecting essential services. Enabling greater impact..

Cost efficiency

Starlink enabled rapid deployment without the cost or delays associated with extending traditional infrastructure.

Looking ahead

Family Legacy plans to continue expanding digital learning and strengthening technology-enabled education, with connectivity remaining central to its long-term strategy.
